DESCRIPTION OF WORK

This PROPOSAL-WORK AUTHORIZATION constitutes the express authority given to SPEECE LEWIS ENGINEERS, INC., by the above-named CLIENT to do the following work:

The scope of services for this project involves engineering design services required to produce final construction plans and specifications for the following:

Speece Lewis Engineers will analyze the existing structure to determine if there is a feasible repair to the existing failed wing. We will also provide the county with an alternate culvert design with cost estimates for both options. If the county chooses to replace the bridge with a culvert, Speece Lewis will provide final design plans and specifications.

The project will include the following: survey, roadway design, bridge rehabilitation plans, and opinion of probable cost.

Construction Engineering will also be included and compensation will be at the hourly rates shown below.

Work tentatively scheduled to begin as soon as possible.

COMPENSATION
